Roomba® Robot Vacuum

The iRobot® Roomba® i7 robot vacuum brings a new level of intelligence and automation to robotic vacuum cleaners with the ability to learn, map, and adapt to a home's floor plan. Using Imprint™ Smart Mapping, the Roomba® i7 robot remembers multiple floor plans and room names so users can customize cleaning jobs, and direct the robot to clean specific rooms by voice¹ or via the iRobot HOME App.

Knows your kitchen from your living room

- The Roomba® i7 robot vacuum uses Imprint™ Smart Mapping technology to learn a home's floor plan, so it knows the kitchen from the living room, giving the user total control to choose which rooms are cleaned and when.
- Truly smart mapping – the robot learns, maps and adapts to a home, determining the best way to clean each and every room.
- Roomba® i7 robot remembers multiple floor plans, so whether it's cleaning upstairs or downstairs, it always knows the best way to clean each room.

¹When paired with Alexa™ enabled devices or the Google Assistant

A clean you can see and feel, every day

- A premium 3-Stage Cleaning System uses Dual Multi-Surface Rubber Brushes and Power-Lifting Suction with 10X the air power² to pull in embedded dirt, debris and pet hair from wherever it hides.
- Using patented Dirt Detect™ Technology, Roomba® removes the dirt from high-traffic spots of a house, with sensors to recognize areas that need more attention, prompting the robot to clean them more thoroughly.
- The Edge-Sweeping Brush is specially designed to sweep debris away from edges and corners.
- The High-Efficiency Filter captures 99 percent of cat and dog dander allergens.

²Compared to Roomba® 600 series AeroVac™ System

Smart home, meet smart robot

- iAdapt® 3.0 Navigation with vSLAM technology helps the Roomba® i7 robot vacuum seamlessly and efficiently navigate a home, keeping track of where it's been and where it has yet to clean.
- Thanks to the iRobot HOME App, users can control when, where, and how their robot cleans, for a truly customized clean.
- Enjoy hands-free control with Alexa³ enabled devices and the Google Assistant⁴ – whether it's tackling a mess in the kitchen, or an entire level of the home, the i7 has it covered.
- The washable dust bin design allows users to simply rinse away dirt and debris left behind.
- Cliff Detect sensors prevent the robot from falling down stairs or tumbling over drop-offs.
